

## **NATIONAL PLANNING FORUM: 12 DECEMBER 2007**

### **DRAFT BUSINESS PLAN 2008-11**

#### **Purpose**

**To consider the draft Business Plan for 2008-11 as set out in paragraphs 3-12 below, and the draft Annual Work Programme for 2008-09 in Annex 2, and to suggest any changes required before it is agreed with Communities and Local Government and brought to the Forum for sign-off in March 2008.**

#### **Background**

1. The Business Plan for 2005-08 was approved by the Forum on 19 September 2005. Annual Work Programmes were agreed by the Executive Board – the programme for the current year is at Annex 1, with progress on delivering the key products highlighted.
2. Consideration of the draft Business Plan for 2008-11 at the December Forum would facilitate discussion with Communities and Local Government on a new Service Level Agreement, as agreed with Bernadette Kelly and Paul Hudson in the meeting with the Executive Board on 8 October.

#### **Draft Business Plan 2008-11**

3. The Business Plan is that of the NPF, and is for approval and adoption by the Forum. This draft has been prepared by rolling forward an update of the current Plan and is for discussion by the Forum. The Plan will be revised in the light of comments before being agreed with Communities and Local Government, and put to the Forum in March 2008.

#### **NPF Mission**

4. The NPF mission is *“to inspire planning and planners to deliver the new planning system, and through that to help achieve quality, inspiring places that enhance productivity as well as people’s well-being”*.
  5. The Forum is evolving its role in line with this by:
    - acting as a sounding board for Government initiatives;
    - formulating expert advice and/or commentary on specific issues and policies;
    - promoting good practice;
    - facilitating cross-sectoral working; and
    - engaging members in “task and deliver” working groups.
- while also:
- avoiding duplicating the work of others;
  - concentrating on areas in which all sectors have a common interest; and
  - aiming to be constructive in all that we do.

5. In delivering on its Mission, NPF aspires to continue to be recognised as the principal cross-sectoral voice on planning issues in England, and a key agent for change across all sectors, enabling planning to deliver more sustainable communities.

#### **NPF Strategic Objective**

6. The strategic objective of the NPF is to work with Communities and Local Government to drive and support culture change within planning, to promote communication that secures mutual understanding and enables the planning to operate more effectively, and to support delivery of sustainable outcomes.

### **Administration and Process**

7. The Forum meets four times a year in full session. The NPF Executive Board, comprising a Vice-Chair elected by each of the 5 sectors, drives the work of the Forum. Each of the Vice-Chairs takes their turn in chairing both the Board and the Forum, in rotation and normally for a year at a time.

8. The Board prepares a draft Business Plan covering 3 years for discussion by the Forum. This forms the basis for a 3 year Service Level Agreement with Communities and Local Government. An Annual Work Programme for each financial year is also prepared in line with the current Business Plan. Together with progress on the previous year's AWP, this is considered in draft, and subject to any required changes is agreed with Communities and Local Government and signed off by the Forum by March each year. The draft AWP for 2008-09 is at Annex 2.

9. The work of the Forum is taken forward by task and finish groups, each led by one of the Vice-Chairs, who may also take on other issues as agreed by the Executive Board. The Secretary liaises with the Chair, Vice-Chairs and others to secure the smooth running of the Forum and its working groups.

### **Key Priorities for 2008-11**

10. The following are proposed:

- 1: develop the capacity of the NPF to make an authoritative and distinctive contribution to spatial planning in England;
- 2: promote culture change amongst planners and everyone involved in planning;
- 3: encourage identification and delivery of high quality spatial solutions, to ensure that planning contributes to achieving more sustainable development;
- 4: input to policy development from a cross-sectoral perspective to ensure improved delivery by, and performance of, the planning system;
- 5: maintain robust criteria for NPF membership, contributions to its work and governance arrangements.

11. The aim of the Executive Board is to continue to raise contributions totally £70k from membership annually, plus one-off amounts to fund publications, research and events. This will allow work to continue at current levels in line with the draft Business Plan, whilst maintaining a prudent level of reserves. This draft Plan will form the basis for negotiation on the Service Level Agreement with Communities and Local Government for funding for 2008-08 and beyond. Other funding contributors are asked to maintain or, if possible, increase their contributions from 2008-09 as this would give our work added momentum. Additional annual or one-off contributions in cash or kind are also welcome.

12. Taking account of available resources, priorities 1-5 in para 10 will be reflected in the Annual Work Programmes (AWP) for 2008-09, 2009-10 and 2010-11. The draft AWP for 2008-09 set out in Annex 2 encompasses new work as well as key items of work rolled forward from the current year (ie culture change and delivery).
